

**Community Wildfire Safety Program**  
**CPUC Workshop Email Invite – Santa Rosa**  
September 9, 2018

Dear Chiefs:

With the 2018 wildfire season upon us, PG&E is convening informational workshops about our Community Wildfire Safety Program.

As you may already know, in the event of extreme fire danger conditions, it may be necessary for us to temporarily turn off electricity in some areas within your community to protect public safety. We understand how important electric service is to our customers, and we will only consider a Public Safety Power Shutoff as a last resort.

Join us at your local workshop to learn more about PG&E's plans and to provide your input:

**Thursday, September 27**  
2 to 4 p.m.  
The Santa Rosa Odd Fellows Hall  
545 Pacific Avenue, Santa Rosa, Calif.

Feel free to share this invite and let us know if you will be able to attend. On-site accommodations such as translation and sign language services are available if needed. Please note that we will also be hosting a community open house meeting on the same day and at the same location from 6 to 8 p.m.

Thank you for your continued partnership with PG&E on our Community Wildfire Safety Program. Please feel free to reach out to me if you have any questions or need any additional information, and we hope to see you there.

Sincerely,

Jim Wickham  
Public Safety Specialist  
Pacific Gas and Electric Company

**Community Wildfire Safety Program**  
**CPUC Workshop General Information – Santa Rosa**  
September 9, 2018

- With the 2018 wildfire season upon us, I am reaching out to let you know that PG&E is planning informational workshops with local agencies like yours about our Community Wildfire Safety Program.
- **The workshop in your area will take place at The Santa Rosa Odd Fellows Hall in Santa Rosa on Thursday, September 27, from 2 to 4 p.m.**
- As you may already know, PG&E's Community Wildfire Safety Program implements additional precautionary measures to further reduce the risk of wildfire and help strengthen our communities for the future.
- In the event of extreme fire danger conditions, it may be necessary for us to temporarily turn off electricity in some areas within your community to protect public safety.
- We understand how important electric service is to our customers and communities and we will only consider a Public Safety Power Shutoff as a last resort in the interest of safety.
- The workshops we are hosting are an opportunity for local agencies to learn more about PG&E's plans and to provide your feedback.
- Feel free to share this invite and let us know if you will be able to attend.
- On-site accommodations such as translation and sign language services are available if needed.
- Please note that we will also be hosting a community open house meeting on the same day and at the same location from 6 to 8 p.m.
- More information is available on our website at [pge.com/wildfiresafety](http://pge.com/wildfiresafety), including a place for customers to update their contact information so that we can attempt to contact them in advance of turning off electricity, when and where possible.
- We hope to see you at the workshop. Please feel free to reach out to me if you have any questions or need any additional information. Thank you.
