

**SONOMA COUNTY
PRE-ESTABLISHED STRIKE TEAM/TASK FORCE RENDEZVOUS**

Overview:

There are several options that could be employed to expedite the deployment of Planned Need Strike Teams/Task Forces. One option is to pre-establish rendezvous points within the County based on the direction of travel of the Strike Team/Task Force.

In order to prevent any responding agency from being required to travel in the opposite direction of the established travel route all rendezvous points should be as close to the Sonoma County line as feasible possible. Some preference should be given to rendezvous points that have bathroom facilities available 24 hours a day.
