FIRE SMOKE COALITION

Know Your Smoke:
The Dangers of Fire Smoke Exposure is a life-saving training program for firefighters and first responders focused on the dangers of fire smoke and how to prevent and treat the exposure if it occurs.

Who Should Attend:

Firefighters	Battalion Chiefs
Engineers	Training Officers
Captains	Hazardous Materials Tech
Paramedics	Fire Investigators
	Fire Chiefs

Instructor Bio: Rob Schnepf retired as the Special Operations Chief with the Alameda County (CA) Fire Department. He is the primary author of a textbook entitled Hazardous Materials: Regulations, Response & Site Operations, by Delmar Publishing, and is on the editorial advisory board for Fire Engineering magazine. Rob is a member of the NFPA Technical Committee on Hazardous Materials Response Personnel. He is also a member of the task group charged with revising NFPA 473 Standard for Competencies for EMS Personnel Responding to Hazardous Materials

Instructor Bio: Chris Hawley is a Senior National Security Analyst with CSC which is a cooperative program with the DOD, FBI and DHS that provides threat assessment, HazMat and Anti-Terrorism training and full scale exercises worldwide. Chris was the Special Operations Coordinator for the Baltimore County, MD Fire Department. Chris has been a firefighter for 24 years and a HazMat responder for 19 years. He is the author of a number of HazMat and terrorism response textbooks and numerous articles. He serves on NFPA 472, and 475 Committees. He also serves as the Conference Coordinator for the International Association of Fire Chiefs (IAFC) Hazardous Materials Response Teams Conference.
