

Prepare for Wildfire Season!

You cut it...We'll chip it. **FREE!**

Fire Safe Sonoma's

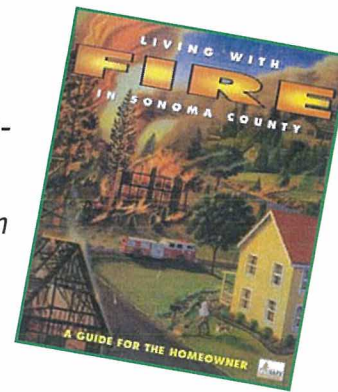

Chippers Ahoy!

No-cost chipper service for Sonoma County residents!

Who is Eligible?

Sonoma County residents who are thinning vegetation in order to improve their **Defensible Space** for wildfire safety.

- ▶ Learn more about Defensible Space and how to create it in *Living with Fire in Sonoma County*. Download at www.FireSafeSonoma.org or call to request a paper copy.

How Do I Participate?

1. Go to our website or call for the "How to Make a Chipper Pile Guidelines." The guidelines tell you what can go in your pile and how and where it should be placed. Cut and pile small trees and brush according to program requirements.
2. When your piles are complete, submit the "Request for Chipping Form." We will send a chipper and crew to your property.

How Long Will it Take?

Response time varies through the year, but is usually a month or less. Check our website for turnaround time or schedule. Contractors will try to schedule chipping at a convenient time, but it may not be possible to arrange for chipping on or before a specific date. You do not have to be there when the chipper comes. Please contact us if you have any questions. Thanks for helping make Sonoma County wildfire ready!

Chipping away at defensible space...One yard at a time.
