

Sonoma County Sheriff's Office

STEVE FREITAS
Sheriff-Coroner

LORENZO DUEÑAS
Assistant Sheriff
Law Enforcement Division

Tele-Communications Bureau

1/9/12

Chiefs;

As I'm sure you know, effective July 1st, 2011, the Sheriff's Office absorbed what use to be Information Systems Department's, Communications Division-Radio, into the new Sheriff's Office, Tele-Communications Bureau.

This letter is to let you know about some of the changes, and to inform you of how we may be able to competitively serve your agency's needs.

The Tele-Communications Bureau staff of five technicians is available 24 hours a day to respond to outage and emergencies. The Radio Shop is fully equipped to service all types of equipment.

The Tele-Communications Bureau has developed, maintains and continues to expand the County's radio communications infrastructure. Major systems include the county-wide, six channel Sheriff's systems; the county-wide four channel Fire/EMS REDCOM systems; the four channel Jail and Court Security systems; Data-Radio; and 250 miles of microwave across 13 radio sites, in three counties, that ties it all together. Additional systems are supported for many other County Departments, including County Parks, County Transportation and Public Works, the Sonoma County Water Agency, and General Services to name a few.

Currently, T-Comm manages 13 radio sites, with three more under construction and several more in the planning phase. Additionally, T-Comm maintains several thousand subscriber units, mobiles and portables.

Effective, December 10th, 2011, the Sonoma County Board of Supervisors approved our fees for Tele-Communications services:
